

KALINDU RODRIGO

Kalindu Rodrigo currently works as a relief teacher at our Community Sinhala Language School in Perth. Also, he is currently doing his Masters of Infectious Diseases in University of Western Australia. He is a qualified Biomedical Scientist who earned his Bachelor's degree in Biomedical Science from University of Wolverhampton in 2017.

After graduation, he spent some time in Sri Lanka working with children and improving their science knowledge. Kalindu has been awarded 1st Place for Sinhala copy writing, Sinhala essay/letter writing and Sinhala Language applications in Zonal level language competitions held by Ministry of Education – Sri Lanka. He loves to share his experience and knowledge with children who love to learn the Language.

Before moving to Australia in 2017 December, Kalindu worked as a teacher for a private institute in Sri Lanka and spent his free time travelling with friends and reading books. Since he settled in Perth, Kalindu has been making new friends and travelling around the country learning their culture. He also loves spending time with his family during weekends. Kalindu has been teaching our community school since 2018.
